

# Gym Gear Sterling Series Half Power Rack

£2,628.00

## Product Images

## Short Description

The Sterling Series Half Rack is a serious piece of training equipment. Built from heavy duty steel tubing electro-welded for maximum integrity, it has an electrostatic powder-coated finish which is heat cured for superior durability. This is the exact same Impulse Sterling Half Power Rack - with a different label.

## Why Choose A Half Rack?

Perfect for performing exercises like squats, and with no less than ten places to store weight plates, you will always have the weights you need at hand. Part of the Sterling Series line, a high quality commercial series of equipment, the lifetime warranty on the frame and two years on the moving parts gives you peace of mind that this will stand up to the heavy use it will get.

## Key Features

- Classic Half Frame design
- 2 adjustable J-Hooks

- 2 adjustable Safety Spotter Arms included
- Heavy duty - commercial grade
- Frame is electrostatic powder-coated for durability
- Integrated pull up/chin up bar
- 10 Olympic weight horns
- Lifetime Frame Warranty
