

# Exigo Counter Balanced Smith Machine (5 Degree)

£3,114.00

## Product Images

## Short Description

As a beginner, the 5 degree slant on the uprights 'removes' some of the weight of the bar. The Exigo Counter Balanced Smith Machine is manufactured in the UK and offers exceptional quality and durability. Suitable for use in any home or commercial facility this Smith machine allows you to perform a range of safe and effective workouts.

## Why A Counter-Balanced Smith Machine

It's safe, easy to use and the 5 degree upright angle reduces the weight of the bar whilst also creating a more biomechanically sound motion range. Exigo have ensured an ultra smooth Smith system and having the catchers with the equally spaced pegs means a quick flick of the wrist to engage the catcher and you're safe. With rear weight storage pegs and being plate loaded, every user can add as much or as little weight as they require. The Exigo counter balanced smith machine is sturdy and designed to give you years of hassle free use.

## Description

---

### 5 Degree Plate Loaded Smith Machine

This superb commercial grade plate loaded smith machine from Exigo represents excellent value for money. Tough and durable it will cope with both the demands of gyms, health clubs or the home user that wants to perform squats, dead lifts and chest press.

It's easy to load the Olympic bar with weight plates and perform squats in safety. The 5° angle of the machine is designed to replicate a natural squatting movement and further enhances the all round effectiveness of this product.

When buying a piece of equipment from Exigo you will get the reassurance of a lifetime warranty on the frame and 2 years on moving parts. Not only this, the machine can also be customised to suit your needs. We have a range of frame colour options and can even adjust the height of the machine if space is an issue. For any custom requirements simply contact us before purchasing.
