Short Description

If you want the best of the best, then the 7ft ultimate mens weightlifting bar is for you. This is our highest quality bar that features eye-catching red ends and is tested to 1500lbs/680kg. This is the ideal bar for crossfit sessions, power lifting and general fitness club use. The centre bar and collars are finished in hardened chrome making it incredibly durable and it includes 8 premium needle bearings for smoother rotations. This bar is available as a 7ft version and 6ft with blue ends.

Rated as tensile 200,000 psi, the 7ft ultimate mens weightlifting bar weighs 20kg and has a grip diameter of 28mm. It is one of the best bars on the market and has smooth refined high quality knurling (no centre knurling).

7ft Ultimate Olympic/Crossfit Bar

This premium quality bar is one of the best around and is great for any Olympic weight training and crossfit sessions. It is tested up to 680kg so should be more than enough for even the heaviest lifters. It has a satin hardened chrome finish and bright red end caps so you can distinguish it from other bars in your gym and the women's ultimate bar.

Here on GymEquipment.co.uk we have a range of high quality Olympic bars for home or commercial use. The ultimate Olympic/Crossfit bar represents excellent value and is also available in a 6ft version.
