

Inspire Fitness CB1 Air Bike

£549.00

Product Images

Short Description

Burn some serious calories and get fit with the excellent value Inspire Fitness CB1 air bike. This unique product utilises both the arms and legs for a total body workout. What's great about the Inspire CB1 air bike is that the faster you pedal the more resistance you produce, so your workouts can be as intense as you want them to be.

The Inspire CB1 Air Bike

The CB1 is incredibly comfortable to use with a fully height adjustable seat and foam padded hand grips. It also comes with rear transport wheels so that you can easily move it from room to room if required. We like the fact that even at this price, the machine comes with an LCD console with time, speed, distance and calories burned feedback. Not only this, the lifetime frame, 2 years parts and 1 year labour warranty means you can exercise knowing that the bike is built to last.

Inspire Air Bike

You will struggle to find another bike that offers this level of quality and gives you as good a workout for approx £450. The Inspire air bike is similar to the Schwinn air bikes and allows you to use your legs on their own, arms on their own or both together for an invigorating and rewarding workout. The more effort you put in the greater the resistance produced. The belt-driven fan resistance system provides air cooling and a smooth feel during use.

The air bike has an easy to use console displaying essential workout data such as time, distance and calories burned. Great to use in any room of the house and suitable for all ages this is an excellent workout product from Inspire Fitness. Checkout their full cardiovascular and strength equipment range here on GymEquipment.co.uk.
