

Align-Pilates C2-Pro RC Pilates Reformer With Leg Extensions

£1,949.00

Product Images

Short Description

A simple but effective addition, the leg extensions when added to the C2-Pro RC Reformer push the bed height up to 42cm which allows for much easier access to the carriage bed. This fifth generation C2-Pro has been named the RC and it comes with all the same high quality build and style, with a few little extras.

The "rapid change" spring bar allows you to adjust with one hand, the gondola pole hooks keep your maple

pole stored when not being used and of course the huge carriage travel at 106.5cm means this is a superb reformer for homes and studios alike. You can choose between a couple of models and you have the knowledge the C2-Pro is used up and down the UK and beyond and is a superb Pilates reformer.

The C2-Pro RC Reformer with Leg Extensions

A simple bundle that allows you to raise the height of the carriage bed to an easily accessible 42cm. This C2 Pro RC Bundle gives you the reformer and leg extensions. The C2-Pro RC is the newest reincarnation of this superb home/studio pilates reformer and you won't be disappointed.

With full back-compatibility with the C-Series reformers and Cadillacs from Align Pilates, you therefore don't have to worry if you're upgrading your existing C-Series as to whether or not everything will still fit and work. This includes the mattress insert; standing platform; and half and full Cadillac frames.

What's New?

- The single handed "rapid-change" RC spring bar
