

# 4m Suspension Training Frame (8 Users)

£1,495.00

## Product Images

## Short Description

Are you looking for a 4m suspension training frame that is suitable for use with TRX's and other suspension trainers for your studio or gym? If so we have a number of bespoke suspension training rigs available. Suspension training is growing in popularity and this is a commercial grade version that is manufactured in the UK and is available in 2m, 3m, 4m, 5m and 6m versions. We can configure the rig to your requirements so contact us and create a dedicated suspension training zone within your gym that will get your members coming back for more.

Please note, these frames are made to order here in the UK so please contact us for the latest lead time. We recommend bolting the frame down at all times for added stability or using the [20kg stability plates](#).

## Suspension Training Rig - 4 metre

Available from 2 metres up to a huge 6 metre long frame, these suspension training rigs will provide the ideal suspension training zone for between 4 and 10 users. Simply hook up your TRX or Jungle gym suspension trainer and then you can perform all your bodyweight exercises in complete safety thanks to the stable A-

frame and sturdy construction. These rigs are manufactured in the UK and come with a lifetime guarantee on the frame.

We also have a number of additional attachments that can be added to the end of each rig. These include a multi-grip chinning bar, dipping bars, weights posts (where floor fixing is not possible) and a punch bag end bracket. Simply contact us for more information.
