£1,290.00

Product Images

Short Description

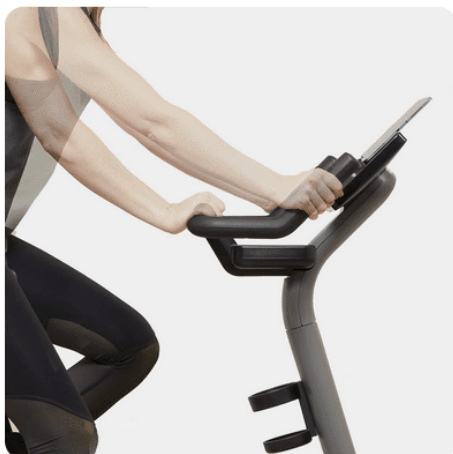

Superb home exercise bike designed for comfort and ease of use. The Technogym Bike creates the simplest way to workout at home with programs, trainers and entertainment.

Ex showroom model in superb condition ready for delivery.

Why Choose The Technogym Cycle?

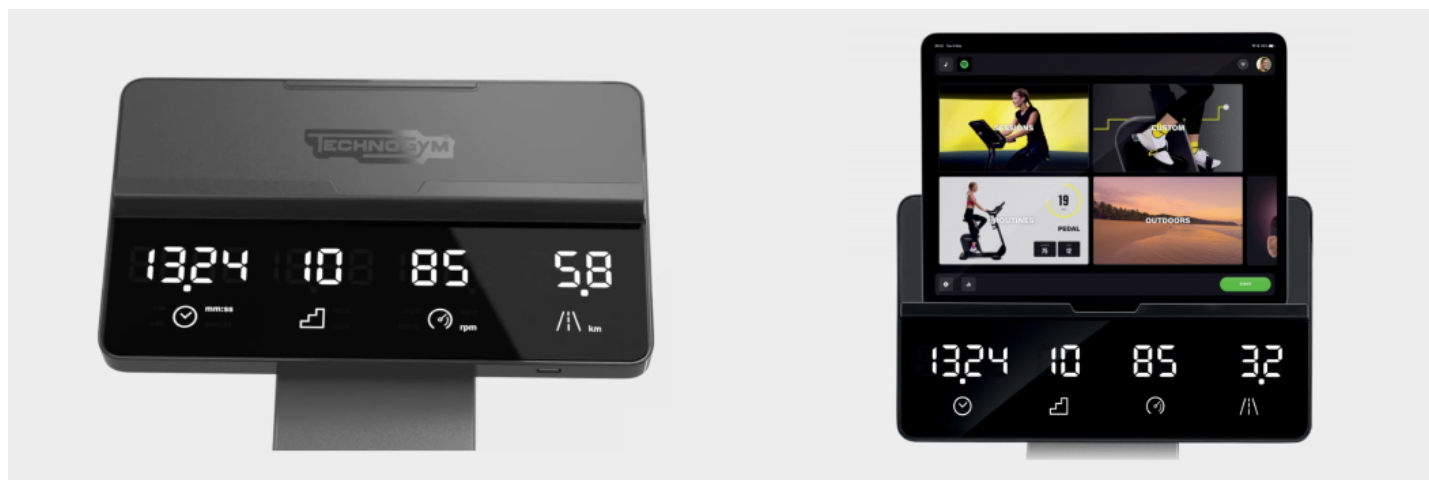

The ease of use, upto 180kg max user weight and the workouts and training features make this is a solid purchase if you want to workout at home. Built with Technogym's superb quality, they have also made this an incredibly comfortable bike for the home thanks to the large seat with multi-layered padding.

With a rigid frame, smooth drivetrain for easy pedalling and accessible controls, you can choose your workout, get advice from a trainer or just get on and ride when you're ready. With simple toe straps, no need to even change shoes.

All In Close Hand Reach

With two main handle bar positions comfortable placed, you can get a very comfortable upright position. Both handlebars come with inbuilt controls for changing your resistance level without having to stop your ride or move position. Ergonomically placed, they give you complete control.

Tracking Your Progress

An easy to use console that can be used without a tablet as your basic metrics are displayed clearly. Put your iPad in the holder and connect to the Technogym Live app either with iPad and Android tablets and you can access a wide range of classes, trainers and Technogym content - not forgetting entertainment to keep you motivated.

Key Features :

- **Personalised Training** : Why not choose a goal-based workout (time, distance or calories) or go for a pure cardio or HIIT session - your choice.
- **Online Trainer** : You can also choose a trainer and let them help motivate you to boost your workout.
- **CPR Training** : Technogym's CPR system (Constant Pulse Rate) monitors your heart rate and automatically adjusts speed and resistance for a safe and efficient workout.
- **Technogym Outdoors** : Train where ever you like - choose from natural landscapes through to cities from around the world.
