Short Description

The Hammer Strength Air Bike

If you like your CrossFit or your HIIT workouts, then the Hammer Strength HD Air Bike (for it's official title) is the perfect tool for your gym or home studio. Built to an incredibly high quality, this air bike can take whatever you throw at it and more.

With multi-grip handlebars and moving arms , you get an ergonomic position with a good comfortable grip. Coupled with the easy to access adjustable air guard, you can change the direction of airflow mid workout to suit you.

Finally, the belt drive system. Creating a rugged bike designed to last, the high performance belt-drive is very smooth and consistent making your ride the same every time. That means you can focus solely on testing your intensity limit each time you workout.
