

Align-Pilates M8-Pro Wood Reformer with Sitting Box

£2,800.00

Product Images

Short Description

The M8-Pro is a direct replacement for the M2-Pro with a host of enhancements. Align Pilates have used their extensive industry experience and design talent to ensure this new M8 Reformer provides the performance serious Pilates workouts require. It's great for home or studio thanks to it's light commercial warranty.

Why Choose the M8-Pro?

Made from solid North American Maple, it's a stylish reformer that stands out from the crowd. With a range of new features it is also a performance piece of equipment. From it's silent and smooth carriage travel that comes from the 8 polyurethane (PU) wheels, through to the Rapid Change (RC) spring bar that allows adjustment with one hand rather than need for both hands.

With it's removable standing platform, storage hooks for the pole and off-centred shoulder rests that give you a choice of two positions, you then can add the accessories that include the platform extender and mattress convertor. Finally, this can also be used with a half cadillac should you so choose.

All the changes and enhancements added by Align Pilates have been done for a reason - to make this an even better reformer experience at home or in the studio.

Key Features

- Solid maple wood frame
