

Primal Series 25kg Adjustable Dumbbell (Single)

£199.00

Product Images

Short Description

You're buying a single adjustable dumbbell that offers up to 25kg in weight for you to workout. You can adjust the weight from 4.5kg through to 25kg and you also get a micro adjustment option that adds between 0kg and 2.2kg. It comes with a moulded storage tray for the unused weights - all marked up with the weight increments.

Less Mess with Adjustable Dumbbells

Sometimes for home gyms, you just don't want the hassle of 10 or more pairs of dumbbells and the need for storage for safety. Here's your answer. The Primal Personal Series 25kg Adjustable Dumbbell gives you the weight you want - from a single dumbbell. Obviously you may want to buy two so that you can use in a balanced way.

The handy moulded storage tray ensures that the unused weight plates are stored safely when you have deselected. There is also the option to buy a handy stand that holds either one or two adjustable dumbbells. Alternatively, if you need more than 25kg maximum weight, we have the 34kg Adjustable dumbbell available too.
