Short Description

The perfect way to get maximum benefit from a single machine - it's the ideal home gym. This Inspire Fitness SF3 Smith Functional Trainer is a high quality dual adjustable pulley trainer that also comes with a selectorized smith machine that means no need to buy an [Olympic weight plates!](#)

The complete list of what you get includes the dual weight stacks as well as adjustable dual pulleys, the pull up bar, the selectorised Smith bar, a range of cable accessories and an adjustable bench. Unlike some other [cable machines](#), the Inspire SF3 Smith Bar allows you to choose between a 2:1 ratio or a 1:1. This means you can use the full 75kg each side for squats with the Smith bar.

Why Choose a Functional Trainer?

Ultimately, the Inspire SF3 Smith Functional Trainer (much like the [Inspire FT2 Functional Trainer](#)) is a very versatile piece of gym equipment. Designed to mimic natural movement patterns and so promoting "functional fitness" the SF3 offers a wide range of motion, allowing for both isolated and compound exercises. It also caters to beginners and advanced athletes alike.

With adjustable pulleys and numerous attachments, the Inspire Fitness SF3 can target multiple muscle groups effectively. This adaptability means you can maximise your space whilst still getting a complete workout. Using a cable machine can also help with injury prevention, improve your athletic performance and promote more functionality in your workout.
