

# 55cm Pro Stability Ball

£33.00

## Product Images

## Short Description

Our new red colour coded 55cm Pro Stability Balls are manufactured with extra thick burst resistant walls, making them heavier and more durable than the Physical Stability Balls.

These club quality balls are manufactured from a material called flexton®, which has strong burst resistant qualities and that have undergone static compression testing. The manufacturers recommend a maximum user weight of 600kg.

They carry the CE mark of approval and the product complies with EU Directive 93/42/EEC as amended by 2007/47/EC relating to medical devices. Date stamped on day of production. Available in three colour-coded sizes and are latex free.
