

65cm Pro Stability Ball

£29.99

Product Images

Short Description

Our new 65 cm Pro Stability Ball is of gym quality and has an extra thick burst resistant walls, which makes them heavier and tougher than standard Stability Balls. This 65cm ball is ideally suited for people up to 6ft tall, and is ideal for weight training, Pilates or postural correction work.

These club quality stability balls are manufactured from flexton, which is a burst resistant material which has undergone static compression testing. The manufacturers **recommend a maximum user weight of 600kg.**

These Balls carry the CE mark of approval. ISO certified quality system. Product complies with EU Directive 93/42/EEC as amended by 2007/47/EC relating to medical devices. We also have the date stamped on the day of production. Balls are colour coded for size and are latex free.
